Hip and Knee Solutions

Knee & Hip Solutions

Knee

ManaEZ™ Wrap 33

- Universal hinged knee brace.
- Medial and lateral hinge straps provide support and compression.
- Wrap design provides custom fit.
- Padded, neoprene fabric.

Part No. EZW33, Suggested HCPC L1833

ManaEZ™ Rom Elite

- Adjustable knee brace with malleable bar system for custom fitting.
- Telescoping and malleable hinge bar extendable from 16.5 to 27".
- Designed for ligament damage, post-operation fixation, knee instability.
- Quick lock key offers ability to lock out hinge motion to 0°, 15°, and 30°.

Part No. EZRE001, Suggested HCPC L1832

GOAT™

- Low profile upright knee brace; universal sizing.
- Allows for varus or valgus tilt in one brace.
- Single upright hinge for further load adjustments.
- Butterfly hand dial allows for medial or lateral correction-no tools required.

Part No. GOA001*, Suggested HCPC L1843, L1851

Trailblazer

- Upright knee brace with step-through design.
- Aluminum alloy frame with quick-fitting magnetic buckle system.
- Pivoting condyle pads for optimal fit.
- Additional flexion and extension angle accessories can be installed.
- Available Sizes: Left and Right, S - L.

Part No. TRBL45**, Suggested HCPC L1845, L1852

ManaEZ™ Rom Ice

- Knee range of motion orthosis with removable ice packs.
- Removable ROM hinges for flexion and extension.
- Compression bulb that fills with air to reduce pain and swelling.
- Universal sizing.

Part No. EZR001, Suggested HCPC L1832, L1833

Hip

ManaEZ™ Hip Ice

- Hip range of motion orthosis.
- Designed with hinges for flexion and extension control.
- Inflation system helps reduce pain and swelling.
- Includes two removable ice packs for cold compression.

Part No. EZHip01, Suggested HCPC L1686

Prevention and Recovery

Vascular and Electrotherapy

ManaFlow 52™

- Portable pneumatic compression device.
- Prescribed for lymphedema, chronic venous insufficiency, and DVT prevention.
- Designed with patient compliance and pressure monitors.

Part No. MFLOW52 (Calibrated), Suggested HCPC E0652

Part No. MFLOW51 (Non-Calibrated), Suggested HCPC E0651

ManaFlexx 2™

- Portable electric muscle stimulator (TENS and NMES).
- Used for pain relief, relaxing muscle spasms, preventing muscle atrophy, increasing blood circulation to prevent venous thrombosis, and maintaining or increasing range of motion.

Part No. MF002-RX, Suggested HCPC E0745

PlasmaFlow™

- Portable vascular therapy device for DVT prevention.
- Electronically-controlled pump delivers air to the leg cuffs, compressing the calf or calves to aid in blood flow.
- Helps reduce post-operative pain, swelling, and wound healing time.

Part No. PF0001, Suggested HCPC E0676

Surgical Kits

Hip Kit

- Includes:
- ManaFlexx 2™, an NMES device to increase strength and range of motion.
- PlasmaFlow™ portable DVT prevention device.
- ManaEZ™ Hip Ice to provide cold compression to help reduce pain and swelling of the hip area.

Part No. HK001, Suggested HCPC E0745, E0676, L1686

Total Joint Kit

- Includes:
- ManaFlexx 2™, an NMES device to increase strength and range of motion.
- PlasmaFlow™ portable DVT prevention device.
- ManaEZ™ ROM Ice to provide cold compression to help reduce pain and swelling of the knee.

Part No. TJK001, Suggested HCPC E0745, E0676, L1833
