

ManaFlexX2™

MANAMED®

Training • Recovery • Rehabilitation • Pain Relief

ManaFlexx 2 has two unique modes - NMES and TENS. The NMES setting is key for the prevention or retardation of disuse atrophy and muscle re-education. The TENS setting is key for post-surgical, post-trauma acute, and intractable pain.

Benefits of the Manaflexx 2

Pain relief Muscle Re-education

Prevention of post-surgical venous thrombosis through immediate stimulation of calf muscles

Creates a clean and complete muscle contraction Prevention or Retardation of disuse atrophy

Manaflexx 2 has several advantages over conventional NMES/TENS devices:

- Rechargeable
- Completely portable
- No wires or bulky devices
- Place it anywhere treatment is desired
- Battery-operated
- Reusable, simply replace pads
