Sizing

Tailback can be adjusted from 25" to 68".

Tailback comes with a main panel and two adjustable belts with comfort pull rings. Simply place the fullback on a table with the inside facing up. When using each matching number, the waist is measured as the following:

S & S = 25" - 32" waist	2XL & 2XL = 50" - 56" waist
M & M = 32" - 38" waist	3XL & 3XL = 56" - 62" waist
L & L = 38" - 44" waist	4XL & 4XL = 62" - 68" waist
XL & XL = 44" - 50" waist	

Step 1 Match the size using the chart to fit your waist match your belts size. Remove Velcro from belts and pull the tabs through to the sizing creases, securing the sizing flap with Velcro to your appropriate crease 1,2,3,4,5,6,7. For your appropriate size, see chart above and reference **Sizing** box to the left (in blue).

2

Slip the brace over your head like a T-shirt.

Position the brace so it is centered on your back and comfortably aligned with your spine's curve.

3

Hold the front of the brace with your hand and fasten the Straps.

4

Adjust the shoulder straps. And also adjust the front metal stay's length and angle. Readjust all straps and all stays until you feel comfortable.

Ice Pack:
This can
velcro into
the brace

Caution! Please read carefully prior to product use:

Always follow your health care professional's specific treatment instructions. Supervision is advised when applying this product on geriatric patients and children. Never apply ice pack(s) directly to skin. As an additional protective barrier such as a cloth towel is recommended to protect against frostbite to the affected area. In the unlikely event there is exposure to the eyes, immediately flush with water and consult with a healthcare professional as a precaution. If ice pack is punctured, dispose of it and reorder a replacement to continue treatment.

Application instructions

Place ice pack(s) into the freezer for at least 4 hours before using. Place the ice pack into pouch and seal shut. Apply to affected area. Remove pack if it becomes uncomfortable. Always follow your healthcare professional's or physician's specific treatment instructions.

Adjusting Posterior Support and Front Metal Stay Posterior Support

To adjust posterior support, first detach the mesh backing on the back of the brace, exposing the pulley compression system and Peel the Velcro strip securing the posterior support, and peel the Velcro strip securing the posterior support. While holding the back panel in one hand, use the other hand to gently pull the posterior support to the desired height. Re-attach the Velcro strip to secure the support in place and re-attach the mesh backing.

To adjust front metal support, first detach the two side panel of the front brace. Peel the oval foam bag and exposing all metal stay. And then use the wrench to loose screws. According to your height, adjust the length and angle. And then tighten up all screws. Finally put the metal stay back into foam bag.

Tailback Brace is a universal lumbosacral orthosis with removable anterior and lateral panels. When properly configured, the Tailback fits the description of the L0464.
